CycloudForte

CORPORATE PROFILE · 2026

Secure digital infrastructure for Africa's digital-first economy.

Cloud, AI and cybersecurity technology for fintechs, financial institutions and digital-first organisations. Founded in Africa, starting with Africa's fintechs, built to global standards.

02 Who we are

03 – 04 ArcheaOne and FinSecure

05 Security services

06 – 08 Track record, events and team

WHO WE ARE · FOUNDED JANUARY 2025

Security technology built to global standards, starting in Africa, where digital finance is scaling fastest.

CycloudForte builds cloud, AI and cybersecurity technology for fintechs, financial institutions and digital-first organisations: fraud intelligence, risk intelligence and AI governance, mapped to the frameworks auditors and regulators already recognise.

We were founded by a Chartered Accountant and certified ISO lead auditor who saw how underserved fast-digitising businesses were. We started in Africa, where digital finance is scaling fastest, and we build to standards that travel. That mix of finance and security expertise runs through everything we ship, and every engagement is led by certified practitioners.

WHAT WE DO

01 · PRODUCTS

Technology

ArcheaOne, our real-time fraud intelligence platform, built for African fintechs and the institutions they serve.

02 · SERVICES

Expertise

Audits, penetration testing, data privacy, AI governance and awareness training, so organisations can adopt and operate securely with confidence.

03 · TRAINING

People

FinSecure, our flagship programme teaching cybersecurity, AI, cloud and compliance to finance professionals through live taught classes with hands-on labs.

AT A GLANCE

21 Sep 2026
ArcheaOne live: test keys available now

2 cohorts
of FinSecure delivered, with Cohort 3 starting 28 November 2026

< 1 sec
for ArcheaOne to return an allow, review or block decision

Microsoft
AI Cloud Partner Program member

WHO WE SERVE

Fintechs · Banks · Lenders · Wallets · Mobile-money operators · SMEs · Organisations adopting AI · Finance professionals

ALIGNED WITH

ISO 27001 · ISO/IEC 27701 · ISO/IEC 42001 · SOC 2 · NIST CSF · NIST AI RMF · GDPR · NDPR / NDPA

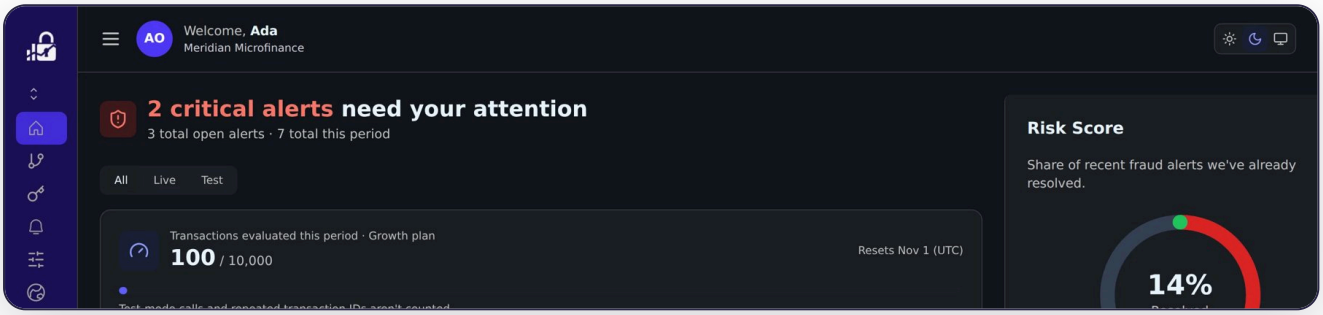

FLAGSHIP PRODUCT

NOW LIVE

ArcheaOne

Catch fraud before the money moves.

ArcheaOne is a fraud intelligence platform for African fintechs. It scores every transaction in real time and returns a clear decision, **allow, review or block**, in under a second, with reason codes on every one. One API call, and nothing touches your production flow until you are ready.

ArcheaOne dashboard, shown with sample data.

Reason codes on every decision

Analysts see what happened in plain words, such as a SIM swap hours before a large transfer, so decisions take seconds.

Your risk appetite, live

Write rules in the dashboard with no code. Test them in a simulator, then switch them on or off without a deploy.

Alerts where you work

Signed webhooks reach your case queue or core banking system within seconds, with delivery logs, retries, and email and Slack alerts.

Live since 21 September 2026. Start free in three steps.

1

Integrate. Get a test key and integrate in about 30 minutes.

2

Test. Send transactions in a separate sandbox and watch decisions and reason codes come back.

3

Go live. Switch on when the numbers land where you want them.

Design partners wanted. We're opening a small number of places for fintechs that want to shape ArcheaOne's rules and reason codes. Contact **partnerships@cycloudforte.com**.

DETECTS

- Account takeover
- Mule accounts
- Card testing
- Structuring and layering
- New-account abuse
- Impossible travel

SECURE BY DESIGN

Encrypted in transit and at rest, test and live traffic kept apart, role-based access with logged sensitive actions, and designed with the Nigeria Data Protection Act 2023 in mind.

FLAGSHIP PROGRAMME

COHORT 3 · 28 NOV 2026

FinSecure

Cybersecurity training built for finance professionals.

Four weeks of live, instructor-led classes with slides and hands-on practice, led by a Chartered Accountant specialising in cybersecurity. Two cohorts delivered so far, with professionals trained across accounting, banking, auditing, insurance and the public sector.

4 Saturdays	10:00 WAT	Fees	Certificate
28 Nov, 5, 12 and 19 Dec 2026	90-minute live classes online, 10:00 to 11:30	Current fees and team offers at cycloudforte.com/finsecure	plus recordings of every class

CURRICULUM

WEEK 1

Cybersecurity Essentials for Finance Professionals

The threats targeting your profession, protecting yourself and your clients, and your NDPR obligations.

Phishing inbox · BEC decision tree

WEEK 2

Cloud Computing and Modern Finance

Evaluating the cloud tools finance teams use, and managing access and data protection in practice.

Cloud tool evaluation · Access control audit

WEEK 3

AI, Automation and the Future of Finance

How AI is reshaping finance, the risks it carries, and what it can never replace about your judgement.

Deepfake invoice challenge · AI terms review

WEEK 4

Risk, Compliance and the Future-Ready Finance Professional

Technology risk assessment, key regulatory frameworks and a personal tech adoption plan.

Tech risk assessment · Breach response

WHO IT'S FOR

Accountants · Auditors · Bankers · Fintech teams · Insurance · Treasury and analysts · Public-sector finance

FOR ORGANISATIONS

Enrol a team of three or more and each place is 10% off the current price. Register at **cycloudforte.com/finsecure**.

SERVICES

Specialist expertise that complements our technology

Assessment, testing, training and governance, so your organisation can adopt and operate securely with confidence.

01

Cybersecurity Audit & Risk Assessment

Identify compliance gaps and security weaknesses with audits mapped to ISO 27001, NIST, SOC 2 and NDPR.

02

Vulnerability Assessment & Penetration Testing

Find exploitable weaknesses before attackers do. Scoped testing with prioritised remediation guidance.

03

Data Privacy & Protection

Data protection frameworks aligned with NDPR and GDPR: policy development, DPIAs and breach readiness.

04

AI Security & Governance

Assess risks in AI systems and establish governance policies for responsible, secure deployment.

05

Security Awareness Training

Reduce human-error risk with structured training programmes, phishing simulations and executive workshops.

START HERE

Not sure where to start?

A free 15-minute consultation is the fastest way to scope what you need. Email securing@cycloudforte.com.

WE HOLD OURSELVES TO THE STANDARD WE SELL

- Data encrypted in transit and at rest; secrets never stored in plaintext.
- Least-privilege access with multi-factor authentication, reviewed regularly.
- Continuous monitoring and audit trails on sensitive systems.
- Regular penetration testing of our own systems, the same service we deliver.
- A rehearsed incident response plan aligned to the 72-hour NDPA notification rule.
- Data handling designed around NDPR and the NDPA.

HOW AN ENGAGEMENT WORKS

STEP 1

Free consultation

A 15-minute call on your systems, obligations and priorities.

STEP 2

Scoped assessment

A fixed scope mapped to the standards your regulators expect.

STEP 3

Report and roadmap

Plain-language findings ranked by risk, with a fix plan.

TRACK RECORD

What we've done

2	60+	5	7	150+
FinSecure cohorts delivered, Cohort 3 from 28 Nov	enrolments in the KC7 Cyber Detective game, 2025	finance sectors trained, from banking to public sector	recognitions for the company and founder	members in Cyclouders, our WhatsApp community

COMPANY MILESTONES

OCT 2026 INSIGHT

New series on how African fintechs can stop fraud

From mule accounts to card testing, published on the CycloudForte blog.

25 SEP 2026 EVENT

ArcheaOne showcased at Founders Friday

Presented to founders and fintech operators.

21 SEP 2026 LAUNCH

ArcheaOne is live

Real-time fraud intelligence for African fintechs, now available.

2026 FINSECURE

Two FinSecure cohorts delivered

Cohort 3 registration opened 26 October, with classes from 28 November 2026.

OCT 2025 PARTNERSHIP

Cyber Detective game with KC7

Brought to Cybersecurity Awareness Month, with 60+ enrolments.

RECOGNITION

1. Named in **Crest Africa's Top 50 African Entrepreneurs** Defining Africa's Future in 2026
2. **2× Guinness World Records** title holder: Most Users in a Vision Board Video Hangout (2024) and Microsoft AI Skills Fest (2025)
3. Selected as a **Google Women Techmakers Ambassador** (Sep 2026)
4. Spotlighted in **SpotLight Nigeria: Women's Edition 2026** (Rising tier)
5. CycloudForte selected as a **Fearless Founder** with Zuri Circle, in partnership with Reliance Microfinance Bank (May 2025)
6. CycloudForte completed the **African Impact Challenge 2026 Bootcamp**, African Impact Initiative with the University of Toronto (Mar to Jun 2026)
7. Founder completed the **Shecluded CFYE Dream-to-Business Incubator** (Cohort 7, Sep 2025)

FEATURED IN

Prodot Hive, our first media feature (May 2025), and **Trax**, which covered the ArcheaOne launch in September 2026.

WHAT FINSECURE PARTICIPANTS SAY

> "Thank you for the knowledge impacted. This is an eye opener."
>
> Akeem Idris, Chartered Accountant & Managing Partner

> "The classes were very simplified and easy to understand."
>
> Adebola Osemwegie, Accountant

> "I love your teaching style."
>
> Iwuji Chioma, Public Sector Accountant

WEBINARS & EVENTS

Sharing what we know

Free webinars, the Cyberxhibit Podcast and the SECFORTE newsletter bring security know-how to professionals and businesses. Webinar recaps and podcast episodes are on our YouTube channel.

OCT 2025 · CYBERSECURITY AWARENESS MONTH

Building a Career in Cybersecurity

Hosted by Osato Mercy with speaker Ononneobazi Aquah. Recap on YouTube.

16 APR 2026 · FREE WEBINAR ON ZOOM

Building a Strong Online Presence for Tech Professionals

Hosted by Elena Igoche and Mercy, with speaker Chisom Elekwa. Recap on YouTube.

1 OCT 2025

Cyber Detective game with KC7

Our Cybersecurity Awareness Month partnership, with 60+ enrolments.

30 SEP 2025

SECFORTE newsletter

Mobile-money fraud, API security, KYC compliance and incident response.

28 MAY 2025

Selected as a Fearless Founder

With Zuri Circle, in partnership with Reliance Microfinance Bank.

PODCAST

The Cyberxhibit Podcast

Our cybersecurity podcast, available wherever you get your podcasts.

LEADERSHIP AND TEAM

The people behind CycloudForte

Ayomide Sogbaike

Founder & CEO

Chartered Accountant and cybersecurity leader, building fraud and risk intelligence for Africa's digital-first economy, from ArcheaOne to FinSecure. Founded CycloudForte after seeing how underserved fast-digitising businesses were.

ACA, Chartered Accountant | ISO 27001 Lead Auditor | ISO 27701 Lead Auditor | ISO 42001 Lead Auditor | Fellow, Management Systems Auditing | Certified AI Security & Risk

Osato Mercy

Operations Lead

Runs our operations and co-built our Cyclouders community with the founder. Project Management, Agile and Scrum (Septa Academy); PMI Generative AI for Project Managers; Cisco-certified in cybersecurity fundamentals.

linkedin.com/in/evbmercy

Fathu-Rahman Azeez

Product Lead

CycloudForte's pioneer product designer, who designed ArcheaOne and crafts intuitive digital experiences from ideas to impact.

linkedin.com/in/fathu-rahman-a

Abdulrahman Olarewaju

Brand Designer

Visual and brand designer who led FinSecure's design and created the ArcheaOne launch visuals, plus our campaigns, event flyers and social graphics.

linkedin.com/in/abdulrahman-olarewaju

Queen Edem

Digital Marketer & Community Manager

Digital marketer and brand strategist, helping brands reach their audience. Diamond Certificate in anti-corruption advocacy (AmpliYouth); Cisco-certified in cybersecurity fundamentals.

linkedin.com/in/queen-edem

ECOSYSTEM

Member of the Microsoft AI Cloud Partner Program

Part of Microsoft's programme for organisations building with its cloud and AI technology.

STANDARDS

Led by certified practitioners

Engagements are led by a Chartered Accountant who is an ISO 27001, ISO 27701 and ISO 42001 Lead Auditor.
